### Objective:

Highly motivated and dedicated Software Engineering Technician student seeking to apply my knowledge and skills in a dynamic and challenging work environment. Committed to delivering innovative solutions and contributing to the success of software development projects.

### SKILLS

- Proficient in programming languages such as Java, C++, and Python
- Solid understanding of software development methodologies and practices
- Experience with database management systems, including SQL
- Familiarity with web development technologies, such as HTML, CSS, and JavaScript
- Strong problem-solving and analytical skills
- Detail-oriented with a focus on quality and efficiency
- Excellent teamwork and communication abilities

### EXPERIENCE

Experience: Software Engineering Intern, [IBM], [Toronto] [3 months]

- Assisted senior developers in the development and testing of software applications, gaining hands-on experience in the software development life cycle.
- Collaborated with team members to identify and resolve software bugs and issues, ensuring high-quality deliverables.
- Conducted code reviews and provided constructive feedback to improve code efficiency and maintainability.
- Contributed to the documentation and maintenance of software projects, facilitating future development and troubleshooting.
